

Become a CCC Group Facilitator

We have heard from our students how much they enjoy the flexible online courses, but one piece of feedback we often receive is that students would like to be able to collaborate with other colleagues while working on their online classes. That is why we have developed the **Group Facilitator Program** to encourage our students to take a course with others and enjoy the benefits of both the flexibility and shared learning.

The **Group Facilitator** will select and facilitate a course with other colleagues. Colleagues do not have to work at your school or district! The CCC website has resources available for you to use to invite your colleagues to take a course with you.

After you and your colleagues have enrolled in the same course, simply complete the CCC Group Facilitator Program enrollment form and submit the form to Dana Schwartz at dschwartz@collegecreditconnection.com. Upon confirmation, CCC will send your Group Facilitator gift(s) to you!

- 3 or more enrollees (including Group Facilitator): A Certificate plus 1 CCC gift
- 6 or more enrollees (including Group Facilitator): A Certificate plus 2 CCC gifts
- 10 or more enrollees (including Group Facilitator): A Certificate plus 2 CCC gifts AND a **FREE** future CCC online course enrollment (excluding external fees, if any).

Meet together as often as you'd like (face-to-face, virtually, email, Facebook group, etc.) to discuss what you are learning, share ideas of how to apply the content, collaborate on lesson plans and assessments, and reflect. Be sure to **include your group collaboration time in each of your Journal Logs!** Then, individually submit your coursework. All assignments must be original.

If you are interested in becoming a Group Facilitator, check out the **Group Facilitator tab** on our website and get started!

We hope that this opportunity will enhance your professional development courses with us and allow you to enjoy both the benefits of our self-paced format and cooperative learning!
